

Give Where You Live: Our Fall Fundraiser, 2020

Dear Valued Community Partner,

This year parks have taken on an especially important role in our lives, and if there's one thing ACCPF knows, it's our parks and the community programs that go with them. ACCPF is the number one supporter of parks and outdoor programming in American Canyon. Since 2015 we have donated over \$140,000 back to our community in support of this mission!

During the pandemic parks have been a source for health, laughter, stress relief and more. We've seen it firsthand during Park and Play, our new Covid response program to support mental health through play. We've also seen it through the happy smiles of families out for an evening bike ride at Wetlands. The month of September is traditionally our Evening at the Ruins fundraising event, however Covid put a stop to our plans. We are excited to kick off **Give Where You Live**, a community fundraiser in direct support of the programs and initiatives that make a big difference in American Canyon.

Our goal is to raise \$50,000 during our Give Where You Live Campaign. Would you consider a donation of \$25, \$100, \$500 or any amount you can afford to give? A donation to ACCPF during our *Give Where You Live* campaign will help us create or expand to provide **more** of what our community needs – **programs that support the healing power of the outdoors through learning, art, literacy, wellness, environmental education, park improvements and more.** *Your donation provides the funding needed to reach over 4,000 people each year in these programs.*

Covid may have changed the world around us, but our belief in using the outdoors as a tool to improve community health, children's education and socialization remains. *Simply put, our work in the community is needed more than ever.*

From the bottom of our hearts, thank you for supporting ACCPF. In appreciation of your support we are excited to offer a variety of thank you gifts for different levels of donations. Please take a moment to explore the impact and focus areas of our work, then make a donation in any amount you can. We truly can't do it without you!

Warmest Regards,

Janelle Sellick, Executive Director
